## THE WWOTC ONSITE GUARANTEE—IF YOU COMMIT, WE COMMIT! WE DO NOT CANCEL ONSITE TRAINING!

WWOTC has been a leader in the Water/Wastewater training industry for a long time now, and part of the reason why is because we have always been committed to being the most flexible and reliable service provider—whether the training is set to take place at one of our locations in Windsor and Hamilton, or at YOUR location ANYWHERE in Ontario.

We understand that sending operators away to training is often not only just a logistical challenge, but a financial one as well. For many communities, especially the smaller rural ones, sending someone away can leave a void at home that simply can't be filled due to a shortage of available operators, and often enough, it's just not affordable to send someone away when taking into account all the associated costs that come with days on the road. That is why we've adapted our approach to providing training to make sure Ontario's communities know that we will always do whatever we can to bring training on the road and to a site of your choosing.

We've been able to do this successfully for a number of years for one main reason—we offer a “flat-rate + travel costs” pricing structure that guarantees the delivery of training (barring an “act of God”). In fact, because of our “onsite guarantee”, we are now delivering training at a nearly 50/50 split between our home locations and yours.

WWOTC is proud of its track record and looks forward to another year on the road doing what we do best!

**Book your onsite training today and we will be there—guaranteed!**
